

# foreverbeech™

## PREFINISHED HARDWOOD DECKING

New Zealand's finest, sustainably harvested hardwood decking to enrich your home for generations. Foreverbeech certified structural quality decking comes with an anti-skid band sawn face in a range of exclusive Natural House Company oil coatings, ready for installation.

### *foreverbeech* advanced specifications:

- MPI certified forest management
- Precision anti-skid band sawn face profile
- Spectacular decorative appearance
- Certified structural quality performance
- High stability
- Precision kiln dried to 12%
- Automated pre-coating
- Exclusive Natural House Company oil coatings
- H3.2 durability without chemical treatment

### *foreverbeech* decorative appearance:

Enhance Foreverbeech with Natural House Company decorative surface appearances.

*While every care has been taken to obtain an accurate representation, due to monitor and print variations, actual colours may differ.*

### *foreverbeech* product specifications:

- Widths 90mm
- Thickness 19mm
- Band sawn face with pencil round on all edges
- Available in certified structural finger jointed lengths, up to 6.3m

***foreverbeech*** recommended installation:

- Minimum 4mm gap depending on ventilation and location
- Double screw fix at 450 centers 15mm in from outside edge
- Pre-drill prior to fixing with 8 gauge x 50mm SS316 screws
- Allow 450mm minimum clearance from ground level for adequate ventilation
- Framing to NZ standards
- Apply Natural House Company decking oil to all cut ends during installation and face on completion of installation

***foreverbeech*** storage and handling:

- As the product is kiln dried, care must be taken to make sure the product remains dry at all times while in storage and during delivery
- Foreverbeech decking must be stored on a well ventilated level surface, on bearers at least 150mm off the ground, protected from direct sunlight and moisture prior to installation
